5. On 16 November, 24 officers and 3 units of about 120 men each were seen passing in review before a high-ranking officer in the billeting area of the Polizei Kaserne on the west side of Jaeger Allee.
6. On 28 November, the southern section of the Delius Kaserne was occupied by about 600 troops who wore red-bordered black epaulets with artillery and motor transport insignia. [] About 40 soldiers were seen servicing 14 trucks, 2 sedans and 5 prime movers which stood in front of the garages on 23 November. Another 40 soldiers policed the barracks yard, while about 150 soldiers received theoretical instruction. Four 122-mm artillery pieces stood in front of one garage. About 25 x 200-liter gasoline barrels were lying on a new, second ramp in the gasoline dump southeast of the officers' billets. Eight 122-mm field guns were seen standing before a garage in the Delius Kaserne on 26 November. On 28 November, the northern section of the Delius Kaserne quartered about 450 troops who wore red-bordered black epaulets, including some with artillery insignia. [] A fuel dump was being established along the northeast edge of the billeting area. About 30 x 200-liter gasoline barrels were seen lying on two ramps. (3)

[redacted] artillery brigade are carried in [redacted] Kaserne, and components of the 30th Gds Gun Arty Brig in the northern section of the installation. The estimates by the two sources regarding the number of troops there are substantially below those made by other sources in early November 1951 and are therefore considered too low. [redacted] The sheds erected in the northeastern corner of the northern section of the billeting area are probably for storing ammunition.

- (2) Components of the 2d Gds AAA Div are carried in the Hohenlohe Kaserne and the Ludendorff Kaserne. [redacted] The estimates by the two sources regarding the number of troops there do not agree but the statements in paragraph 7 and 8 of the present report are more probable. The relatively light occupation of the two installations may be explained by the fact that the two sources observed only light AA guns in the billeting area. Some of the units with heavy AA guns were probably manning emplacements in Potsdam. See paragraph 4 of the present report

- (5) The information confirms the Kavallerieschule, Krampnitz, as quartering the 10th Gds Tank Div, including the 81st Gds Hv Tank SP Regt which was probably transferred from Gross Glienicke to Krampnitz, but excluding the 63d Gds Tank Regt. This hypothesis is strengthened by the strength estimates given in the present report which approximately equal the T/O strength of the division. [redacted]

- (6) A report of late October 1951 by the same source indicated that the General Wever Kaserne quartered components of the unidentified artillery division from Potsdam.
